John Malachy
F R O N T   E N D   D E V E L O P E R

Motivated front-end developer with a strong background in designing and developing innovative web solutions. Seeking an internship role that offers opportunities for growth.

Projects:

Project 1: Responsive Portfolio Website

- Developed a responsive personal portfolio showcasing various projects using HTML5, CSS3, and JavaScript.
- Implemented a mobile-first design approach and optimized for cross-browser compatibility.
- Utilized media queries, Flexbox, and CSS Grid for a seamless user experience.

Project 2: E-commerce webApp (Elclassico)

- Created an E-commerce webApp using CSS and JavaScript

Project 2: Movie app using React.js

- Implemented a search function to search for movies using React hooks like usestate and useeffects
- Implement features for a user friendly interface
